Docket No.: DC-02762 (16356.604)

COMPUTER SYSTEM THERMAL LAP MANAGEMENT METHOD AND APPARATUS

Abstract of Disclosure

5

10

A computer comprises a central processing unit, at least one fan disposed for providing cooling to the at least one central processing unit, and a thermal manager. The thermal manager monitors a temperature of the central processing unit and dynamically controls a throttling of the central processing unit and the at least one fan according to a thermal management algorithm.
